English Reading

Many of us love our cellphones. But, did you know they can get dirty? Our phones have germs. So, it's important to clean them. Having a clean phone keeps us healthy. To clean your phone, you will need a cloth, water, and soap. First, turn off your phone. Wet the cloth and soap. Wipe the phone with the cloth. Make sure it's not too wet. Then use a towel. Always remember, washing your hands before using your phone also help keep it clean. So, let's keep our phones clean!
